DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Ohmura US4215504.
3. Regarding claim 1, Ohmura discloses a circular ring 12 on one end; the circular ring having two opposite sides of the perimeter extended downwards to form a vertical section (see orientation in fig 2); the vertical section having a distal end 15 extended outwards and downwards and bent inwards to become narrower so as to form an inclined conical section 13 which has a horizontal plane 16 at one end; the horizontal planes of two sides being symmetrical and joined juxtaposed to form a flat and conical fastening section; the circular ring 12 further having a lower end 17 extending downwards to form an arrow shaped fastening section 18 opposite the conical fastening section.
4. Regarding claim 2, Ohmura discloses the inclined conical section 13 has a vertical surface to form a surface contact with the fishing line (at bottom portion of element 12).

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ohmura US5870848; Ohmura US4507891; Ohmura US3690027; Ohmura US6378240.
